

CASE STUDY CORUS

Project: Heavy Mill Building Demolition
Client: Corus - Scunthorpe
Date: January to April 2010

Mill Clean Up Cleans Up!

Through working with Specialist Demolition Contractor, Ron Hull Demolition Ltd of Rotherham, Corus Scunthorpe Heavy Section Mill achieved substantial savings through a series of selected demolitions.

A number of old, derelict buildings across the site were cleared, and some 1000 tonnes of scrap re-processed by Corus.

The success of the Demolition Project was due to a combination of Ron Hull Demolition Ltd's vast knowledge of the Scunthorpe Site and excellent working relationships with the Client, built up over a number of years.

Corus hailed the Project as a truly excellent job, which was completed without accident or incident.
