

CASE STUDY FAIRPORT ENGINEERING

Project: Ardagh Glass Factory
Client: Fairport Engineering Ltd
Date: January to May 2009

Ron Hull Demolition were tasked with the demolition of the former Ardagh Glass Factory, Worksoop, which was to make way for a recycling plant for MBA Polymers (UK) Ltd.

The project required meticulous planning as sections of the factory were to remain:

- Explosive demolition of Batch Plant and Chimney
- Removal of contaminants
- Asbestos Removal Works.

The project was completed on time with zero reportable incidents.
